SUMMARY

Self-motivated Front-End Application Developer with certificate in Full Stack Web Development from the University of Kansas.. Collaborates with other developers to create responsive web applications that consist of clean, efficient, and maintainable code. Keeping up with the latest technologies and trends to ensure high-quality applications. Comfortable troubleshooting front-end issues by understanding back-end functionality. Strengths in HTML5, CSS3, Javascript, SQL, Git, JQuery, Node.js, REST APIs, and ReactJS.

TECHNICAL SKILLS

Technical Languages: HTML5, CSS3, JavaScript ES6, Typescript, PHP

Frameworks & Tools: Git, React, Node.js, Express.js, jQuery, Bootstrap, React-Bootstrap

APIs: Server-side APIs, RESTful APIs, GraphQL

Databases: MySQL, NoSQL (MongoDB), Sequelize, Mongoose

Other: Object-oriented programming, Redux, WordPress, Agile Methodology

PROJECTS

Tech Blog
 https://github.com/CECurtiss/TechBlogSite | https://cryptic-gorge-77238.herokuapp.com/

- Developed social media site using handlebars in a Model-View-Controller structure. Enabled users to create posts, interact with other users' posts, and have other users comment on their posts.

- Leveraged JavaScript, HTML, Handlebars, MVC structure, Express, MySQL, and Sequelize

- Managed version control system(Git) for seamless updates.

Parks & Weather App
https://github.com/CECurtiss/parks-and-weather-app |https://cryptic-gorge-77238.herokuapp.com/

- Designed application for users to find parks during road trips. Implemented search function for parks located in a particular state, and provides information about that park, as well as weather information for the next few days in that location. This application uses server-side APIs and uses client-side local storage for persistent data.

- Enhanced functionality through JavaScript calls to Parks API and CSS styling.

- Test API calls and code to ensure proper functionality.

- Collaborated, communicated, & implemented website design and use of version-control to review and provide feedback to multiple developers working on different branches.

Developer Portfolio
https://github.com/CECurtiss/reactdeveloperprofile |https://cecurtiss.github.io/reactdeveloperprofile/

- Created personal developer portfolio, including general information, personal projects, a downloadable resume, and a contact form.

- Skillset: React, React-Bootstrap, JavaScript, CSS

EXPERIENCE

Cork & Barrel Wine & Spirits   **August 2009- Present**
Lawrence, KS

Promoted to assistant manager in 2016. Managed employees, deposits, and financials in QuickBooks.

Promoted to Beer Manager later that year. Ordered and managed inventory, coordinated with representatives, and scheduled sale events. This position is unsupervised and requires self-motivation to manage a large number of perishable products.

Achieved Best Bottle Shop in Kansas(RateBeer) and Best Place to Buy Beer in Lawrence(Best of Lawrence awards).

Tent Manager   **July 2000-Present**
Bartz FIreworks   Lawrence, KS

Led inventory management, merchandising, sales and negotiating, and training before being assigned a tent to run in 2019. Attained profit growth of 10% in the last 2 years and the largest growth of three established tents in the last 5 years. Maintained 90% worker retention and conducted scheduling, hiring, additional training, bookkeeping, and coordination with fire and county officials.

Kaw Valley Kickball League Board Member   **2021-Present**

Contributed to a charity based community kickball league of 450-500 members. Each year this league raises money for a preselected local organization through league dues, charity events, and volunteer work. Collaborated with a small team that organizes a yearly charity auction, participated in group discussions about direction and event planning, and performed general maintenance and organization of this league.
